

## IIRCO SP / Liquid

### Product's Specification:

| INDEX NAME           |                          | INDEX VALUE               |
|----------------------|--------------------------|---------------------------|
| PHYSICAL PERFORMANCE | Appearance               | Yellow transparent liquid |
|                      | Color,(Gardner method),< | 1                         |
| CHEMICAL PERFORMANCE | Heating loss, %, max     | 1.2                       |
|                      | Relative density         | 1.075-1.088               |
|                      | Viscosity,(25°C),Pa.s    | 3.2-5.0                   |
|                      | Refractive index         | 1.5990-1.6015             |
|                      | Ash content,%, max       | 0.05                      |

- Properties:** Rubber Protective agent IIRCO SP is a kind of excellent Protective agent, used in Natural rubber and butylbenzene, chloroprene, ethylene-propylene and other synthetic rubber, Mainly used in rubber overshoes, bicycle inner tube, Electric wire, latex, latex sponge, transmission belt and white transparent and color rubber goods. On the other side, It could be as stabilizer of polyethylene and polypropylene, also, could be as antioxidant of poly olefin hydrocarbon and polyoxymethylene.
- Application:** The product has excellent performance of Heat-proof aging, whether aging and bending proof, the max characteristic is no pollution, which stops the producing of gel in butylbenzene rubber, which is that characteristic that other protective agents have not.
- Storage:** Keep in cool, dry and ventilating place, avoid direct sunlight.
- Package:** 200kg drums.
